

Climate Change and Health Vulnerability and Adaptation Assessments

Why is it
important?

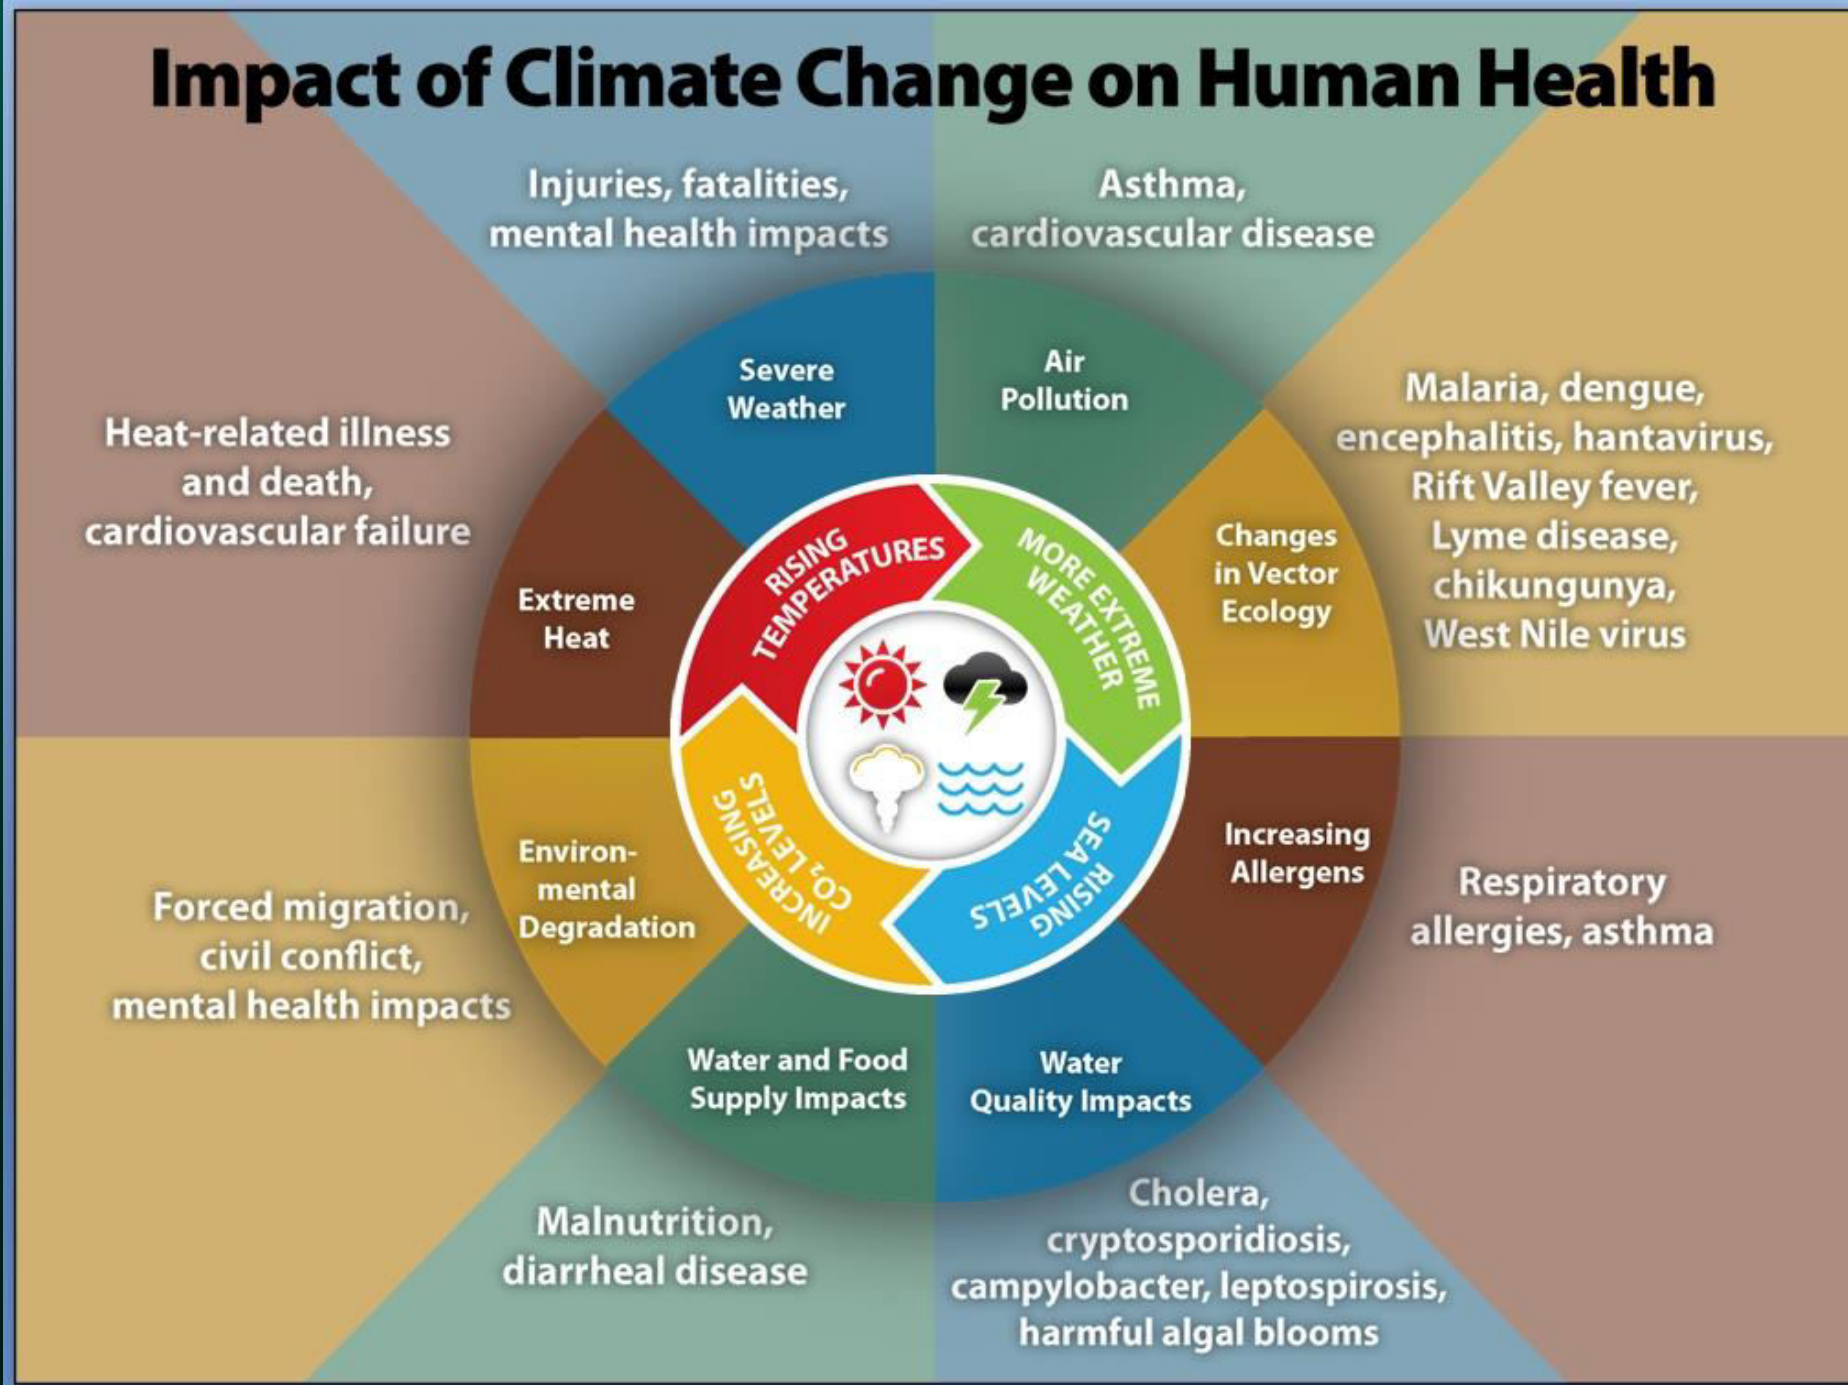

**Climate change is the
biggest health threat
facing humanity.**

World Health Organization

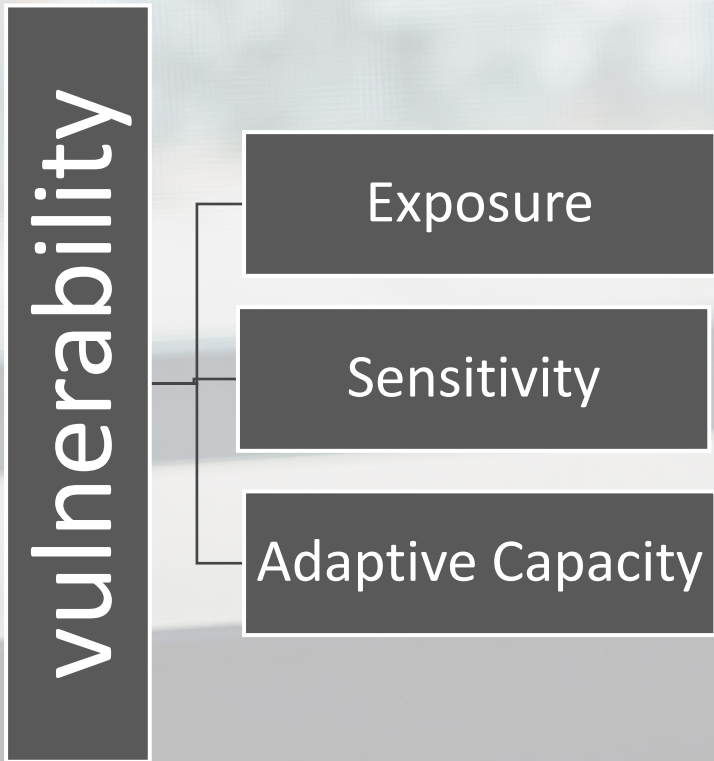

[Climate change and health \(who.int\)](https://www.who.int)

Impact of Climate Change on Human Health

Key Concepts in Determining Vulnerability

Exposure to Climate Change Hazards

- Extreme temperatures
- Extreme weather events
- Air quality
- Water safety
- Food security
- Vector-borne diseases
