MINISTER'S DETERMINATION CONDITIONS OF APPROVAL

Pursuant to Regulation 87-83 under the Clean Environment Act

November 30, 2011

File Number: 4561-3-1315

1. In accordance with section 6(6) of the Regulation, it has been determined that the undertaking may proceed following approval under all other applicable acts and regulations.
2. Commencement of this undertaking must occur within three years of the date of this Determination. Should commencement not be possible within this time period the undertaking must be registered under the *Environmental Impact Assessment Regulation (87-83)* – Clean Environment Act again, unless otherwise stated by the Minister of Environment.
3. The proponent shall adhere to all obligations, commitments, monitoring and mitigation measures presented in the EIA registration document dated July 22, 2011, as well as all those identified in subsequent correspondence during the registration review. Additionally, the proponent shall submit a summary table detailing the status of each Condition listed in this Determination to the Manager of the Environmental Assessment Section of the Department of Environment (DENV) every 6 months from the date of this Determination until such a time as all the Conditions have been met.
4. If it is suspected that remains of archaeological significance are found during construction, as per the Heritage Conservation Act, all activity shall be stopped near the find and the Resource Manager of the Archaeological Services Unit, Heritage Branch of the Department of Wellness, Culture and Sport, shall be contacted at (506) 453-3014.
5. An Environmental Management Plan (EMP) must be prepared for the construction, operation, and maintenance phases of this project. The EMP can be submitted in sections for each individual phase of the project. The EMP for each phase must be submitted for review and must receive approval from the Manager of the Environmental Assessment Section of the Department of Environment prior to the commencement of any project activities related to that particular phase.
6. Prior to Phase IV of the Project (Operation), the proponent must:
 - Complete a Threat, Risk and Vulnerability Assessment (TRVA) specific to the proposed work and provide this TRVA to the Department of Public Safety (DPS);
 - Update and/or modify the existing Emergency Management Plan and Security Management Program for the Canaport LNG Terminal and the Canaport Crude Oil Terminal as required as a result of the TRVA; and,
 - Provide copies of the updated/modified Emergency Management Plan and Security Management Program for the Canaport LNG Terminal and the Canaport Crude Oil Terminal to DPS for their review pertaining to the incremental changes due to the proposed work.

7. The proponent must ensure that all developers, contractors, and operators associated with the construction and operation of the project comply with the above requirements.
