MINISTER'S DETERMINATION CONDITIONS OF APPROVAL

Pursuant to Regulation 87-83 under the Clean Environment Act

June 16, 2016

File Number: 4561-3-1327

1. In accordance with section 6(6) of the Regulation, it has been determined that the undertaking may proceed following approval under all other applicable acts and regulations.
2. Commencement of this undertaking must occur within three years of the date of this Determination. Should commencement not be possible within this time period the undertaking must be registered under the *Environmental Impact Assessment Regulation (87-83)* – Clean Environment Act again, unless otherwise stated by the Minister of Environment and Local Government.
3. The proponent shall adhere to all obligations, commitments, monitoring and mitigation measures presented in the EIA registration document dated December 5, 2011 as well as all those identified in subsequent correspondence during the registration review. Additionally, the proponent shall submit a summary table detailing the status of each Condition listed in this Determination to the Manager of the Environmental Assessment Section of the Department of Environment and Local Government (DELG) every six months from the date of this Determination until such a time as the Manager determines it is no longer required.
4. If it is suspected that remains of archaeological significance are found during construction, as per the Heritage Conservation Act, all activity shall be stopped near the find and the Resource Manager of the Archaeological Services Unit, Heritage Branch of the Department of Tourism, Heritage and Culture, shall be contacted at (506) 453-3014.
5. The proposed baseline survey of water wells within a 250 m radius of the north abutment and within a 100 m radius of the south abutment must take place as described in the course of the EIA review. The number and location (GPS coordinates and PID number) of the wells that are included in this survey must be provided to the Manager of DELG's Environmental Assessment Section.
6. In the event of a complaint from a neighbour that the construction of this project has negatively impacted the quantity or quality of their private water supply, the proponent must investigate the complaint and notify DELG. If it is determined that the proponent is responsible for any such negative impacts, the proponent will be required to provide a temporary water supply for short-term impacts, or to repair, remediate, or replace any permanently impacted well(s), which might include, but is not limited to, deepening a well or drilling a new well.
7. The proponent must ensure that all developers, contractors, and operators associated with the construction and operation of the project comply with the above requirements.
