While this map may not be free from error or omission, care has been taken to ensure the best possible quality. This map is a graphical representation of property boundaries which approximates the size, configuration and location of properties. It is not a survey and is not intended to be used for legal description or to calculate exact dimensions or area.

Même si cette carte n'est peut-être pas libre de toute erreur ou omission, toutes les précautions ont été prises pour en assurer la meilleure qualité possible. Cette carte est une représentation graphique approximative des terrains (limites, dimensions, , configuration et emplacement). Elle n'a aucun caractère officiel et ne doit donc pas servir à la rédaction de la description on officielle d'un terrain ni au calcul de ses dimensions exactes ou de sa superficie.

While this map may not be free from error or omission, care has been taken to ensure the best possible quality. This map is a graphical representation of property boundaries which approximates the size, configuration and location of properties. It is not a survey and is not intended to be used for legal description or to calculate exact dimensions or area.

Même si cette carte n'est peut-être pas libre de toute erreur ou omission, toutes les précautions ont été prises pour en assurer la meilleure qualité possible. Cette carte est une représentation graphique approximative des terrains (limites, dimensions, , configuration et emplacement). Elle n'a aucun caractère officiel et ne doit donc pas servir à la rédaction de la description on officielle d'un terrain ni au calcul de ses dimensions exactes ou de sa superficie.

Photo 1 - View of the GSSC main office building looking northeast.

Photo 2 - The existing Screw Pump Building looking northeast.

Photo 3 - View east with the lagoons to the left and the Pre-treatment Building closest to the fence and the Screw Pump Building to the extreme right. Photo taken from Cap-Brule Road.

Photo 4 - View north with the Existing Aerated Lagoon #1 to the right and the Cap Brule Road to the left in the photo. Note that the majority of the Site apart from the WWTF structures is grassed.

Photo 5 - View east from Cap Brule road towards some of the main buildings on Site. The maintenance garage is to the extreme right and existing Blower Building to the left of the garage. Again, the screw Pump Building is left of the Blower Building and main Office to the extreme left of the photo.

Photo 6 - View NNW to Aerated Lagoon No. 1, note residences in the left side of the photo.

Photo 7 - Looking south towards Route 133, towards several residences located along this highway. The topography slopes upwards towards these residences. The fenceline is the southern boundary of the Site.

Photo 8 - Looking southwest to the main treatment buildings from the northeast edge of Treatment Lagoon No. 2.

Photo 9 - Looking north at the outfall towards Lac des Boudreau (wetlands) and beyond that to Northumberland Strait. This fence is the northern boundary of the Site.

Photo 10 - Looking east towards the UV Treatment Building, which is located at the northeast corner of the existing Polishing Cell.
