Fredericton NB E3B 5H1

FOREWORD

The annual graduate follow-up survey collects information from graduates of regular and non-regular community college training programs approximately one year following graduation. The information gathered provides valuable feedback on the success of graduates in the labour market and is an important tool for decision-makers. This tool, along with other sources, is incorporated into the college's planning process.

This report presents the findings of the *2019 Survey of 2018 Graduates of the New Brunswick Community College*. The survey was conducted with 538 graduates over a 15-week period starting December 1, 2019. This represents a response rate of 33%.¹

The reference week for the survey was November 18 to 24, 2019. Survey results indicate that survey respondents of the Class of 2018 were successful in locating employment, with an employment rate of 89%.

The Department would like to thank the New Brunswick Community College graduates who participated in this survey; their input has been invaluable.

Graduate follow-up survey results will be located on our website at the following location:
http://www2.gnb.ca/content/gnb/en/departments/post-secondary_education_training_and_labour/People/content/LabourMarketInfo/follow-up_surveys.html .

As always, your comments and suggestions are welcome. Please forward all communication on this year's survey to:

Policy, Research and Labour Market Analysis Branch
Department of Post-Secondary Education, Training and Labour
LMI@gnb.ca
(506) 453-4155

¹ The population for this year's survey consisted of those who graduated during the 2018 calendar year and who provided their consent for use of their contact information. During data collection, 12 respondents reported that they were not graduates of 2018 and were removed from the sample, thus, the graduate population (n=1,634) was reduced to a sampling frame of 1,622 graduates.

SOURCES OF INFORMATION

In addition to the *Survey of New Brunswick Community College Graduates*, the following are selected New Brunswick sources of online career, learning, and labour market information. The list is not all-inclusive, as there are a multitude of information sources available. Not all of the following sources are related to the Department of Post-Secondary Education, Training and Labour, unless otherwise indicated. The descriptions have been adapted from the publications themselves.

NBCC Calendar Online

<http://www.nbcc.ca>

This is the official website for the New Brunswick Community College. It provides general information on admission to the campus, as well as a complete online calendar.

New Brunswick Student Financial Assistance

<http://www.studentaid.gnb.ca/>

The Student Financial Services Branch of the Department of Post-Secondary Education, Training and Labour administers and delivers all government student loan programs and most associated bursaries and grants. Student Financial Assistance is designed to assist eligible New Brunswick residents to access post-secondary educational opportunities. This website provides links to the Student Financial Assistance Information Guide and online forms.

Training and Skills Development (TSD) Program

http://www2.gnb.ca/content/gnb/en/services/services_renderer.5097.html

The Department of Post-Secondary Education, Training and Labour provides support through its TSD Program to eligible clients who require training or academic upgrading as part of their employment action plan. This site provides details on the program, who is eligible to participate, the level of support available, and who to contact for further information.

Department of Post-Secondary Education, Training and Labour – Labour Market Information Products

http://www2.gnb.ca/content/gnb/en/departments/post-secondary_education_training_and_labour.html

The Department of Post-Secondary Education, Training and Labour provides links to a wide variety of online labour market information products, including the online version of this publication.

NB Jobs

www.nbjobs.ca

This website promotes job opportunities in New Brunswick. It also provides valuable New Brunswick Information to job seekers, employers, learners, and newcomers to the province.

NEW BRUNSWICK COMMUNITY COLLEGE CAMPUS LOCATIONS

Information on programs offered through the New Brunswick Community College can be obtained through any of the campuses listed below, or at the following website:

Executive Summary

This report presents the findings of the *2019 Survey of 2018 Graduates of the New Brunswick Community College*. This follow-up survey generated information from 538 graduates, representing 33% of the 1,622 graduates to be contacted for this survey.²

The following bullet points present key information obtained through the 2019 survey:

- ▶ The employment rate in the 2019 reference week for graduates one year following graduation was 89%. The employment rate has remained relatively stable over time, but decreased slightly from what was reported in 2018 (91%).
- ▶ The employment rate in the reference week for female graduates was 93%, which is up slightly from the female employment rate in 2018 (92%).
- ▶ The employment rate in the reference week for male graduates was 87%, down from the male employment rate in 2018 (90%).
- ▶ The unemployment rate in the reference week for graduates was 11% in 2019, up slightly from what was reported in 2018 (9%).
- ▶ Overall, the percentage of graduates who worked in jobs related to their training during the reference week is up slightly compared to the past year (85% in 2019, 83% in 2018).
- ▶ Among graduates with one or more months of employment since completing their training, 90% reported that at least some of their employment was related to their training, which is similar to the proportion in 2018 (89%).
- ▶ The percentage of employed graduates in the reference week working in New Brunswick increased slightly over the past year (94% in 2019, 92% in 2018).
- ▶ The percentage of graduates who reported being self-employed in the reference week has remained consistent over the past year (1% in 2019, 1% in 2018).
- ▶ The majority (92%) of employed graduates in 2019 worked for one employer in the reference week, higher than what was reported in 2018 (86%).
- ▶ In the reference week, female graduates in full-time positions earned approximately 85% of the wages of the male graduates in full-time positions (\$767 versus \$906, respectively), which is lower than what was reported in 2018 (94%).

² The population for this year's survey consisted of those who graduated during the 2018 calendar year and who provided their consent for use of their contact information. During data collection, 12 respondents reported that they were not graduates of 2018 and were removed from the sample, thus, the graduate population (n=1,634) was reduced to a sampling frame of 1,622 graduates.

1.0 Introduction

Follow-up surveys with graduates of New Brunswick's community college system have been conducted since 1983. For the first 28 years, the survey was conducted by telephone; however, since 2011, an online survey has also been added. The survey is conducted annually with graduates of regular and non-regular programs of the colleges. In 2010, the governance structure of the community college system was converted from that of a Special Operating Agency (SOA) into two separate, autonomous Crown corporations: New Brunswick Community College (NBCC) and Collège communautaire du Nouveau-Brunswick (CCNB). The New Brunswick College of Craft and Design (NBCCD) retained its Special Operating Agency status within the Department of Post-Secondary Education, Training and Labour.

For the 2019 survey, interviews were completed with 538 graduates from a total listing of 1,622 graduates who were eligible to participate in the survey.³

The data supplied by these surveys provides valuable feedback on the success of New Brunswick Community College graduates in the labour market, which, in turn, serves as an important indicator of how well the training provided by NBCC corresponds to the demands of the labour market.

This report provides detailed information gathered from the *2019 Survey of 2018 Graduates of the New Brunswick Community College* through five sections, summarized in the material that follows.

- ▶ **Section 2.0** presents the methodology of the 2019 survey and provides a profile of the graduates contacted with a comparison with the overall population of graduates.
- ▶ **Section 3.0** presents the information highlights from the 2019 survey.
- ▶ **Section 4.0** presents fact sheets that summarize the survey information for some academic groups and specific programs.
- ▶ **Section 5.0** presents labour market information for academic groups and specific programs.
- ▶ **Section 6.0** presents the evaluations provided by graduates of programs and services offered at NBCC.

A list of the terminology used in this report is provided in Appendix A.

³ The population for this year's survey consisted of those who graduated during the 2018 calendar year and who provided their consent for use of their contact information. During data collection, 12 respondents reported that they were not graduates of 2018 and were removed from the sample, thus, the graduate population (n=1,634) was reduced to a sampling frame of 1,622 graduates.

2.0 Methodology

The *2019 Survey of 2018 Graduates of the New Brunswick Community College* was guided by researchers from the Policy, Research and Labour Market Analysis Branch of the Department of Post-Secondary Education, Training and Labour (the Department). Any comments or questions about the information contained in this document should be forwarded to the Department.

In 2019, the New Brunswick Community College (NBCC) generated a database with background and current contact information for 1,634 graduates from the Class of 2018.⁴ The background data and required contact information was retrieved from the NBCC's student information management system.

During surveying, 12 graduates were removed from the original list⁵, leaving 1,622 eligible respondents. The 538 interviews completed represent 33% of the total number of graduates who were eligible to participate in this survey.

As in previous surveys, graduates were asked about their activities during a specific week of the year (the reference week). Reference week information is an indicator of graduates' current activities. ***The reference week for the 2019 survey was November 18–24, 2019.***

In addition to reference week information and information collected on activities since completing their training, graduates were also asked to evaluate their NBCC training program and various facilities and services available at their campus.

The overall approach to the Graduate Follow-Up Survey was changed in 1996. Previously, surveys were conducted in March, capturing information from graduates of the previous academic year. Between 1996 and 2013 the surveys were conducted in June, but starting in 2014 they were conducted beginning in October to January. The change in the time of the reference week should be kept in mind when comparing the results from previous surveys.

This survey was conducted by telephone and online using a Computer Assisted Telephone/Web Interviewing (CATI/CAWI) system. An attempt was made to contact all eligible graduates, regardless of their current area of residence.

All graduates with an email address were emailed a link to complete the survey online. In addition, all graduates with a cell phone number were sent a text with a link to the online survey. Approximately one week after the initial email and/or text, attempts were made to contact graduates by telephone to complete the survey by phone.

Over the course of surveying, six additional email reminders and two reminder texts were sent to individuals who had not yet completed the survey.

Graduates were assured of the absolute confidentiality of their responses and were informed of their valuable contribution to the study. A toll-free number and a survey-specific email address were provided to graduates if they had any questions or apprehensions about the survey. Graduates were given the option to complete the survey in French or English. Data for this study was collected from December 1, 2019 to March 14, 2020.

⁴ The survey typically includes graduates of regular and some non-regular (or contract) training programs of approximately 12 weeks or longer. The population for this year's survey consisted of those who graduated during the 2018 calendar year and who provided their consent for use of their contact information.

⁵ These 12 graduates were removed from the list because they indicated they were not graduates of 2018.

2019 Survey of 2018 Graduates of NBCC

In total, 538 NBCC graduates completed the 2019 survey. Of those completed surveys, 281 (52%) completed online and 257 (48%) completed by telephone. The 2019 survey response rate of 33% is lower than that of previous years (between 42% to 52% from 2015 to 2018).

The proportion of graduates who refused to take the survey once contacted was similar to last year (7% in 2019, 8% in 2018); however, the proportion of those unable to be reached by phone was much higher in the current survey (36% in 2019, 25% in 2018). Additionally, the online completion rate was much lower in 2019 compared to last year, as only 17% of the total graduate population completed the survey online versus 27% in 2018.

Table 1 presents a summary of NBCC response rates for the surveys over the 2015–2019 period.

Table 1: NBCC response rates, 2015–2019			
	Graduate population	Survey population	Response rate
2019 Regular/Non-Regular	1,622	538	33%
2019 Regular	1,589	528	33%
2018 Regular/Non-Regular	850	428	50%
2018 Regular	839	421	50%
2017 Regular/Non-Regular ⁶	843	436	52%
2017 Regular	843	436	52%
2016 Regular/Non-Regular ⁷	724	369	51%
2016 Regular	724	369	51%
2015 Regular/Non-Regular	849	354	42%
2015 Regular	824	344	42%

⁶ The file of eligible graduates for 2016 did not contain any non-regular (contract) graduates.

⁷ The file of eligible graduates for 2015 did not contain any non-regular (contract) graduates.

Figure 1 presents an overview of the age and gender distribution for graduates contacted.⁸ The largest group of respondents was males aged 24 years or younger, followed by females aged 24 years or younger.

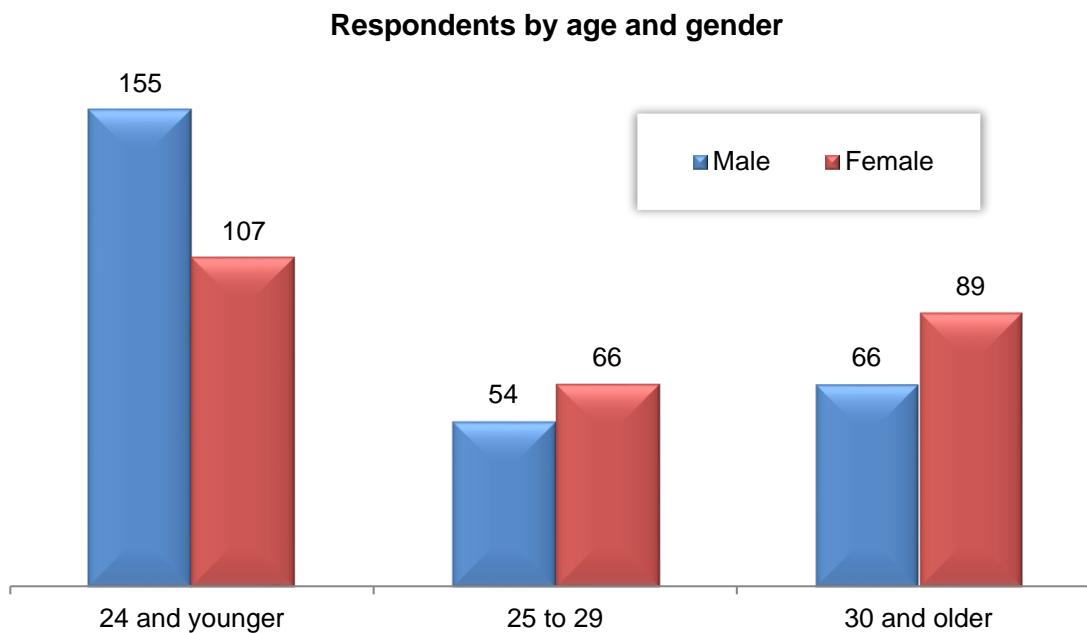

Figure 1

⁸ Respondents who did not provide a response were excluded.

Table 2 presents a comparative summary of the graduate population over the past five years. The percentage of female graduates in 2019 (49%) remains relatively consistent and has been within two percentage points of the proportion of male graduates for three consecutive years. The percentage of graduates 24 years of age and younger was lower than the percentage last year (49% in 2019, 54% in 2018) and is at the lowest proportion in the past five years, decreasing again for the third consecutive year.

Table 2: Demographics, 2015–2019⁹		
Gender	Male	Female
2019 Regular/Non-Regular	51%	49%
2019 Regular	51%	49%
2018 Regular/Non-Regular	49%	51%
2018 Regular	49%	51%
2017 Regular/Non-Regular	50%	50%
2017 Regular	50%	50%
2016 Regular/Non-Regular	54%	46%
2016 Regular	54%	46%
2015 Regular/Non-Regular	53%	47%
2015 Regular	53%	47%
Age	24 and under	25 and over
2019 Regular/Non-Regular	49%	51%
2019 Regular	49%	51%
2018 Regular/Non-Regular	54%	46%
2018 Regular	54%	46%
2017 Regular/Non-Regular	62%	39%
2017 Regular	62%	39%
2016 Regular/Non-Regular	66%	34%
2016 Regular	66%	34%
2015 Regular/Non-Regular	63%	37%
2015 Regular	63%	37%

⁹ Respondents who did not provide a response were excluded.

3.0 Survey highlights

The information in this section presents a summary of research findings for the Class of 2018, along with a comparison of key variables in relation to research findings from previous years.

3.1 Labour force information (reference week)

The labour force participation rate for all graduates in the reference week is down slightly from the previous year (90% in 2019; 92% in 2018). The female participation rate decreased (88% in 2019, 92% in 2018), while the participation rate for males increased slightly from the previous year (93% in 2019, 92% in 2018).

Table 3: Labour force participation rate (reference week), 2015–2019¹⁰			
	Total	Male	Female
2019 Regular/Non-Regular	90%	93%	88%
2019 Regular	90%	93%	88%
2018 Regular/Non-Regular	92%	92%	92%
2018 Regular	92%	92%	92%
2017 Regular/Non-Regular	92%	91%	94%
2017 Regular	92%	91%	94%
2016 Regular/Non-Regular	89%	87%	92%
2016 Regular	89%	87%	92%
2015 Regular/Non-Regular	93%	95%	91%
2015 Regular	93%	94%	91%

¹⁰ Respondents who did not provide a response were excluded.

2019 Survey of 2018 Graduates of NBCC

Table 4 presents comparative labour market information for the 2019 survey and the population of New Brunswick. As shown, graduates had a higher unemployment rate (11%) compared with the province as a whole (8%). However, the unemployment rate for graduates was similar to the youth unemployment rate of 11.1% (unadjusted) for December 2019.

Table 4: Labour market information – NBCC graduates and population of New Brunswick				
Labour market indicators	Labour force survey¹¹	2019 Survey (reference week)¹²		
		Overall	Regular programs	Non-Regular programs
Labour force	n = 385,000	n = 483	n = 474	n = 9
Employed	n = 356,300	n = 432	n = 426	n = 6
Unemployed	n = 28,700	n = 51	n = 48	n = 3
Participation rate	61%	90%	90%	90%
Unemployment rate	8%	11%	10%	33%

Table 5 summarizes employment rates from 2015–2019 overall and by gender. Overall, the employment rate has remained relatively stable over time, but decreased slightly from the past year (89% in 2019, 91% in 2018). There was a slight increase for female graduates over the past year (92% to 93%) and a decrease for males (90% to 87%).

Table 5: Employment rate (reference week), 2015–2019¹³			
	Total	Male	Female
2019 Regular/Non-Regular	89%	87%	93%
2019 Regular	90%	87%	93%
2018 Regular/Non-Regular	91%	90%	92%
2018 Regular	91%	91%	92%
2017 Regular/Non-Regular	90%	85%	96%
2017 Regular	90%	85%	96%
2016 Regular/Non-Regular	91%	89%	94%
2016 Regular	91%	89%	94%
2015 Regular/Non-Regular	90%	86%	94%
2015 Regular	90%	87%	94%

¹¹ Statistics Canada Labour Force Survey, December 2019, seasonally adjusted. CANSIM table 14-10-0287-01. Retrieved from <https://www150.statcan.gc.ca/n1/daily-quotidien/200110/dq200110a-eng.htm>. For youth aged 15-24 the unadjusted unemployment rate was 11.1% in December 2019.

¹² Respondents who did not provide a response were excluded.

¹³ Respondents who did not provide a response were excluded.

2019 Survey of 2018 Graduates of NBCC

As shown in Table 6, the majority of employed graduates continue to be employed in New Brunswick, with the proportion increasing slightly from the previous year (94% in 2019, 92% in 2018).

Table 6: Percentage of employed graduates working in New Brunswick (reference week), 2015–2019¹⁴	
2019 Regular/Non-Regular	94%
2019 Regular	94%
2018 Regular/Non-Regular	92%
2018 Regular	92%
2017 Regular/Non-Regular	94%
2017 Regular	94%
2016 Regular/Non-Regular	93%
2016 Regular	93%
2015 Regular/Non-Regular	90%
2015 Regular	90%

¹⁴ Respondents who did not provide a response were excluded.

3.2 Additional education/training for graduates

In surveys prior to 2001, graduates were asked if they were attending an educational institution or training program at the time of survey contact. Since 2001, respondents have been asked if they were attending an educational institution or training program *or planning to attend in the near future*.

As demonstrated in Table 7, the percentage of graduates attending or planning to attend an educational institution or training program increased from 2018 (21% in 2019, 18% in 2018).

2019 Regular/Non-Regular	21%
2019 Regular	21%
2018 Regular/Non-Regular	18%
2018 Regular	18%
2017 Regular/Non-Regular	24%
2017 Regular	24%
2016 Regular/Non-Regular	23%
2016 Regular	23%
2015 Regular/Non-Regular	22%
2015 Regular	23%

¹⁵ Respondents who did not provide a response were excluded.

As shown in Table 8, the percentage of graduates employed (for one or more months) since graduation remains very high in 2019, increasing from the previous year (99% in 2019, 96% in 2018) to the highest proportion over the last five years.

Table 8: Percentage of graduates employed since completing training, 2015–2019¹⁶	
2019 Regular/Non-Regular	99%
2019 Regular	99%
2018 Regular/Non-Regular	96%
2018 Regular	96%
2017 Regular/Non-Regular	99%
2017 Regular	99%
2016 Regular/Non-Regular	97%
2016 Regular	97%
2015 Regular/Non-Regular	98%
2015 Regular	98%

¹⁶ Respondents who did not provide a response were excluded.

3.3 Overall employment for graduates

Since graduation, 99% of graduates have been employed in at least one job of one month or longer in duration. The following table demonstrates the percentage of those employed graduates with at least one month of that employment in a position related to their training.

Among those graduates with one or more months of employment since completing their training (99%, n = 531), 90% reported that at least some of their employment was related to their training. On average, 91% of the total months worked since graduation were in positions related to their training.¹⁷

Table 9: Percentage of employed graduates in related employment since completing training, 2015–2019¹⁸	
2019 Regular/Non-Regular	90%
2019 Regular	91%
2018 Regular/Non-Regular	89%
2018 Regular	90%
2017 Regular/Non-Regular	90%
2017 Regular	90%
2016 Regular/Non-Regular	87%
2016 Regular	87%
2015 Regular/Non-Regular	88%
2015 Regular	88%

¹⁷ Some respondents did not report whether any of their employment was related to training; therefore, percentages are based on n = 418.

¹⁸ Respondents who did not provide a response were excluded.

3.4 Geographic location of graduates

In November 2019, 94% of graduates who responded to the survey were residing in New Brunswick, which is up from the previous class of graduates (92%).

Approximately 10% of graduates have lived outside New Brunswick since graduation. Among those who have lived outside the province (n = 54), the majority (70%) left the province for employment, which is higher than in 2018 (58%). In 2019, 59% of graduates who left the province for employment had obtained employment prior to relocation, which is lower than 2018 (66%).

	Currently living in the same community as before NBCC...	Lived outside NB at some point since completing training...	Of those who left, the percentage who left for employment reasons...	Of those who left for employment reasons, the percentage with a job to go to...
2019	76% (n = 409/536) ¹⁹	10% (n = 54/537) ²⁰	70% (n = 37/53) ²¹	59% (n = 22/37)
2018	74%	12%	58%	66%
2017	71%	11%	67%	67%
2016	78%	14%	66%	66%
2015	73%	6%	77%	54%

Graduates currently living in same community as before NBCC, by campus

Moncton	83%	Saint John	75%
Woodstock	77%	St. Andrews	69%
Fredericton	76%	Miramichi	67%

At the time of the survey, graduates most commonly resided in Moncton (21%) or Saint John (19%).

Top locations in which graduates currently reside

Moncton	21%	Miramichi	7%
Saint John	19%	Woodstock	3%
Fredericton	13%		

¹⁹ Two respondents who did not provide a response were excluded.

²⁰ One respondent who did not provide a response was excluded.

²¹ One respondent who did not provide a response was excluded.

3.5 Reference week employment

Employed

The following tables present an overview of employment during the reference week.

Total employed (n)	One employer %	More than one employer %	One employer and self-employed %	Self-employed %
432	92%	6%	1%	1%

As in previous years, the majority of employed graduates (74%) were employed in permanent positions during the reference week; however, this year's results are slightly higher than in 2018 (73%). Employment status has remained relatively stable over time, especially over the past three years.

	Permanent	Temporary	Self-employed
2019 Regular/Non-Regular	74%	25%	1%
2019 Regular	74%	25%	1%
2018 Regular/Non-Regular	73%	26%	1%
2018 Regular	73%	26%	1%
2017 Regular/Non-Regular	75%	24%	1%
2017 Regular	75%	24%	1%
2016 Regular/Non-Regular	82%	18%	1%
2016 Regular	82%	18%	1%
2015 Regular/Non-Regular	70%	29%	1%
2015 Regular	69%	30%	1%

²² Respondents who did not provide a response were excluded.

2019 Survey of 2018 Graduates of NBCC

As with previous years, the majority of employed graduates (72%) were employed in the reference week in positions directly related to their training. Overall, related employment (directly and indirectly) in 2019 (85%) is up slightly compared to the past year (83%).

Table 13: Relation of reference week work to training, 2015–2019²⁴

2015 Regular	69%	14%	17%

In the 2019 survey, there were only 31 respondents among the list of eligible graduates who had graduated from a co-op program in 2018, so results should be examined with caution. Thirty of those respondents were part of the labour force and 27 were employed. Twenty-three reported being employed in a position directly or indirectly related to their training during the reference week, while the other four reported being employed in positions not at all related to their training.

Table 14: Employment comparison – graduates of co-op programs (reference week)²⁵

	Total in the labour force	Employment rate	Relationship of employment to training		
			Directly related	Indirectly related	Not at all related
All graduates	483	89%	72%	13%	15%

62	Health care and social assistance	12	91%	\$743	9%	-

*Due to small sample size (n = 1), average weekly wage was not reported.

Gender differences in wages

In past graduate surveys, gaps have been identified between the overall wages of male and female graduates. In the 2019 reference week, male graduates averaged \$906 per week in full-time positions, while female graduates in full-time positions averaged \$767 per week (a gap of approximately -15%).³⁹

Since it has been demonstrated that males and females tend to be employed in different occupations, gaps may be expected. An attempt to compare wages for male and female graduates employed in the same occupations was not possible due to small sample sizes (i.e., only six occupations had at least two female and two male respondents reporting weekly earnings).

³⁷ Respondents who did not provide a response were excluded.

³⁸ Respondents who did not provide a response were excluded.

³⁹ Results should be interpreted with caution due to small sample sizes.

Not working (unemployed and not in the labour force)

Out of all graduates, 20% (n = 106) were not working during the reference week. This includes those who were unemployed (n = 51) and those who were not in the labour force (n = 51).⁴⁰ Graduates who were not working during the reference week were asked to provide the main reason that they were not working.

Most commonly, graduates were not working during the reference week because they indicated they were *in school full-time* (25%), *on maternity/paternity leave* (13%) or because of their *own illness or disability* (12%).

Table 24: Main reason for not working during the reference week⁴¹	
In school/training full-time	25%
Maternity/paternity leave	13%
Own illness or disability	12%
Unable to find work/no jobs available	9%
Inability to find job related to NBCC training	9%
Waiting for recall after layoff	5%
In school - apprenticeship block	4%
Personal or family responsibilities	4%
Waiting for job to start	3%
Laid off	3%
Between jobs/looking for something new	2%
Moving/moved	2%
Available jobs require more training or education	1%
In school part time	1%
Lack of bilingual ability	1%
Job/contract ended (not layoff)	1%
Vacation/time off	1%
Other	3%

⁴⁰

Four respondents did not provide enough information to classify as unemployed or not in the labour force.

⁴¹

Respondents who did not provide a response were excluded.

2019 Survey of 2018 Graduates of NBCC

Thirty-two percent (32%) of graduates not working during the reference week (n = 33) were attending or planning to attend an educational institution or training program.⁴² Following are the top reasons these graduates provided for their return to an educational institution or training program:

- To upgrade existing skills (28%)
- To obtain a university degree (28%)
- To get a better/more interesting job (19%)
- To learn a new trade or occupation (9%)
- Finish blocks (9%)
- Could not find employment (3%)
- To expand knowledge/learn something new (3%)⁴³

⁴² Respondents who did not provide a response were excluded.

⁴³ Respondents who did not provide a response were excluded.

3.6 Other survey findings

Employment since graduation

Nearly all graduates (99%) have been employed for a period of at least one month since graduation.⁴⁴ Those who have been employed averaged 1.9 different jobs. The percentage of graduates who have been employed since graduation is up compared to the past year (96% for the previous class of graduates).

Prior Learning Assessment and Recognition (PLAR) and Credit Transfer Services

Graduates were asked questions to determine their awareness, use, and evaluation of PLAR and Credit Transfer Services. Overall:

- 66% of graduates reported that they were aware of these services; and
- 34% were not aware of these services.⁴⁵

Among those who were aware of these services (n = 333):

- 61% heard about PLAR through their college campus;
- 34% heard about PLAR through word of mouth;
- 5% heard about PLAR through their high school;
- 4% heard about PLAR through the internet/NBCC website;
- 2% heard about PLAR through their instructors/teachers/director;
- 1% heard about PLAR through the newspaper;
- 1% heard about PLAR through university;
- 1% heard about PLAR through pamphlets/flyers; and
- 1% heard about PLAR through another method.⁴⁶

Of graduates who were aware of these services, 20% (n = 63) have used them (12% of all graduates).⁴⁷

Of those who have used these services:

- 71% have applied for Credit Transfer;
- 16% have applied for a Prior Learning Assessment; and
- 13% have applied for both.⁴⁸

⁴⁴ Respondents who did not provide a response were excluded.

⁴⁵ Respondents who did not provide a response were excluded.

⁴⁶ 4% did not report how they found out about these services. Respondents were able to give multiple responses.

⁴⁷ 2% did not provide a response.

⁴⁸ 3% did not report on what services they used.

2019 Survey of 2018 Graduates of NBCC

Graduates who have applied for one or both of these services were asked if they had received course credit for courses taken at another institution or from an employer. The majority of these graduates (92%) reported that they had received course credit.⁴⁹ This course credit resulted in a reduced course load for 89%, reduced tuition for 7%, and reduced time to graduate for 2%. Seven (7%) percent of graduates reported their progress did not change due to receiving course credit and 4% reported other ways their progress was affected.

The graduates who received course credit (n = 55) provided the following evaluations of the services they received:

- 47% were very satisfied;
- 51% were satisfied; and
- 2% were very unsatisfied.

⁴⁹ 1% did not report if they received course credit.

4.0 Survey results by campus, academic group, and program

The following section contains a fact sheet for the NBCC respondents overall, fact sheets for male and female respondents, a fact sheet for each campus, and fact sheets for academic groups and programs within academic groups for which a sufficient number were interviewed.⁵⁰

Presented below is a list of programs within each academic group at NBCC for the year 2018. Due to small starting populations and sample sizes, fact sheets were not included for all academic groups and programs. Those without fact sheets are indicated with an “*”. All programs, with the number of graduates and the number of respondents, may be found in Section 5.0.

Note that names of academic groups are denoted in capital letters. Program names are denoted with initial capital letters.

6.0 Graduate Assessments of Programs and Services

In the tables below, the percentages for each assessment are based on those who provided a concrete rating (excellent/good/fair/poor); those percentages total to 100%. Respondents who selected 'don't know/prefer not to answer' are excluded from those calculations. The numbers in the final column are presented for informational purposes only, and simply indicate the percentage of respondents who did not provide a concrete rating for that particular assessment.

NBCC – Overall (n = 538)	Excellent	Good	Fair	Poor	Don't know/ prefer not to answer
Program Content	46%	43%	9%	2%	<1%
Facilities Available	45%	42%	11%	2%	2%
Equipment Available	38%	46%	14%	3%	5%

Appendix A – Terminology

Terminology

NBCC

New Brunswick Community College is a corporation including six campuses situated throughout the province of New Brunswick.

Average Weekly Earnings

Refers to the average of the gross earnings that graduates reported for the reference week. The information presented in the fact sheets are based on earnings reported by graduates who indicated that their employment was either *directly or indirectly* related to their training.

Employed

The number of respondents who had a job during the reference week.

Employment

Defined in terms of full-time/part-time and permanent/temporary as follows:

- Full-time: Employment of 30 hours or more per week.
- Part-time: Employment of less than 30 hours per week.
- Permanent: Employment which has no prearranged termination date.
- Temporary: Employment which ends at a prearranged date.

Employment Rate

The number of employed graduates as a percentage of those in the labour force.

Employment Related to Training

Employed graduates were asked about the extent to which their employment during the reference week was related to their training program. Options presented to the respondent included directly related, indirectly related and not at all related.

Related Employment – includes employment that graduates reported as either directly related or indirectly related to their training program.

Not at all related – means that were in jobs that were not at all related to their training.

Graduate Population

Graduates of regular training programs or non-regular (contract or distance) training programs of twelve weeks or more in duration that terminated between January 1, and December 31, 2018.

Labour Force

In the context of this survey, Labour Force is composed of respondents who were either employed or unemployed but looking for work during the reference week.

Not in the Labour Force

Respondents who were not working and not looking for work, during the reference week.

Labour Force Participation Rate

The percentage of respondents who were actively participating in the labour force during the reference week (based on the total number of respondents).

Labour Force Survey

A monthly survey by Statistics Canada which collects labour force information from a representative sample of the working age population.

NAICS (North American Industrial Classification System) 2017

NAICS was used to categorize the industrial sectors/industries in which graduates were employed in the reference week. Fact sheets list the top industries for employment.

2019 Survey of 2018 Graduates of NBCC

NOC (National Occupational Classification) 2016

The National Occupational Classification was used to categorize the kind of work done by graduates. The top responses are given.

Programs

Regular – programs that operated throughout the year on a year-to-year basis. Regular training programs are listed in the annual NBCC Calendar.

Non-Regular – programs that are offered through NBCC that are not part of the regular program listing in the Calendar. These programs may or may not have the same content as regular training programs of the same name.

Co-op – cooperative Education Programs integrate periods of classroom study with periods of training in related work. Each work situation is developed and approved by the College as a suitable learning situation. Co-op trainees are placed in productive work, receive wages and have their progress monitored by the employers and representatives of the College.

Reference Week

The week of November 18th – 24th, 2019 served as the reference week for this survey. During the survey all graduates were asked about their activities during this week.

Response Rate

The number of respondents as a percentage of the number of eligible graduates.

Self Employed

Someone who is working but has no employer other than her/himself.

Total Employment since Graduation

The total number of graduates who reported that they had been employed, at some time, since completing their training at NBCC.

Relation of Employment since Graduation to Training

The percentage of graduates who reported that they held at least one employment position since graduation which was either directly or indirectly related to their training program at NBCC.
